Callaway RAZR X Hybrid

\$145.00

The Callaway RAZR X Hybrid is uncompromised performance. The RAZR X Hybrid leverages the new Zero Roll Design to help golfers hit higher and longer shots, even when struck low on the face. These inertia-driven clubs are highly playable and offer hot ball speeds so players can dial in their ideal performance.

Additional Features:

Zero Roll Design: clubface with zero roll produces a higher launch angle on shots hit low on the face, increasing distance with softer landings

Aggressive VFT Technology: precision shaping of the face thickness in each club increases the size of the sweet spot and generates hotter ball speeds for longer distance

Inertia Driven Design: increased head size of the standard model creates better forgiveness and produces shots that fly higher, longer and straighter

Standard model has an offset hosel that assists in squaring the clubface at impact while providing a look at address that boosts confidence

Crown Construction: Steel

Shaft: RAZR Hawk Graphite

Grip: Carbite Rubber Composition
